

We do road safety right!

GRI Road Services is a leading supplier and installer of road safety products throughout Queensland and Northern New South Wales with a proven history of successfully working with construction companies, as well as state and local road authorities. GRI not only supply and install road safety barriers and associated road safety products, but can assist in providing expert advice ensuring the most cost effective and appropriate applications and layouts, utilising their vast industry experience and product knowledge.

GRI understands the demands of operating efficiently on a job site, and therefore you will always find that GRI provides effective solutions to any issues that may arise ensuring the projects are completed on time and on budget.

GRI offers the highest quality service whether it be a 50 km stretch of highway, a multistory car park facility or a distribution warehouse that requires

safety barriers installed, you know that if you have GRI on the job, you have made the right choice! The directors and management of GRI Road Services have over 50 years combined successful history in the road safety and construction industries, which gives you the peace of mind that GRI knows the trade inside and out.

With an Integrated Management System in place and a customer comes first attitude, GRI can undertake even the most complex and detailed project with ease providing you, the customer, with a finished project that meets your expectations with a minimum of fuss.
